

Corepoint Health Successfully Completes Interoperability Testing at Annual IHE Connectathon

PLANO, Texas, January 28, 2010 – Corepoint Health, a [healthcare integration](#) software leader, successfully passed interoperability testing at the 2010 Integrating the Healthcare Enterprise (IHE) North American Connectathon event in Chicago.

The IHE Connectathon is the healthcare IT industry's largest interoperability testing event. A full range of profiles defined in the IHE Technical Frameworks are tested in a carefully organized and supervised environment. It serves as an opportunity for participants to test their implementations with other vendors.

Corepoint Health successfully completed Connectathon testing for:

Integration Profiles Implemented	Actors Implemented
Cross-Enterprise Document Sharing (XDS.b)	Document Source
Cross-Enterprise Document Reliable Interchange (XDR)	Document Source
Cross-Enterprise Document Sharing-Scanned Documents (XDS-SD)	Content Creator (Text and PDF)
Consistent Time	Time Client

“For over 12 years, Corepoint Health has been very active in the healthcare standards community, contributing to the development of HL7 standards and offering many [HL7 resources](#) to assist in achieving integrated healthcare,” said Dave Shaver, CTO at Corepoint Health. “These certifications validate our continued efforts to produce solutions that meet today’s interoperability requirements in an effective, real-world, and practical manner,” concluded Shaver, who currently co-chairs the [HL7](#) Infrastructure and Messaging Technical Committee and has been involved with the development of HL7 since 1993.

Corepoint Health delivers high-performing yet intuitive software solutions to enable a highly-integrated healthcare environment for hospitals, radiology groups, labs, and clinics. Healthcare organizations rely on Corepoint Health’s [interface engine](#) and interoperability solutions to streamline patient data exchanges and essential operational workflows.

Corepoint Health was recently recognized as being #1 in the Interface Engines market segment of the *2009 Top 20 Best in KLAS Awards: Software & Professional Services* report (©2010 KLAS Enterprises, LLC. All rights reserved. [www.KLASresearch.com](#)) and also was awarded the *2009 Most Valuable Product (MVP)* by *RT Image* magazine in the Data Storage & Management category.

Corepoint Health’s interoperability solutions will be demonstrated at 2010 HIMSS Conference & Exhibition in Atlanta, March 1-3, Booth 1233.

###

About Corepoint Health

Corepoint Health has the healthcare IT experience and strength to deliver a dramatically simplified approach to internal and external data integration and health information exchange for hospitals, radiology centers, laboratories, and clinics. Our next generation software solutions are transformational and will streamline your IT environment, provide a fast track to achieving your interoperability goals, and create operational leverage within your organization. Corepoint Health’s solutions achieve a needed balance of being both intuitive and sophisticated while delivering solid functionality and performance.
